

# Vantage 12 Sheet Metal Panel & Overlay Reference

# Panel and Overlay Selection Process

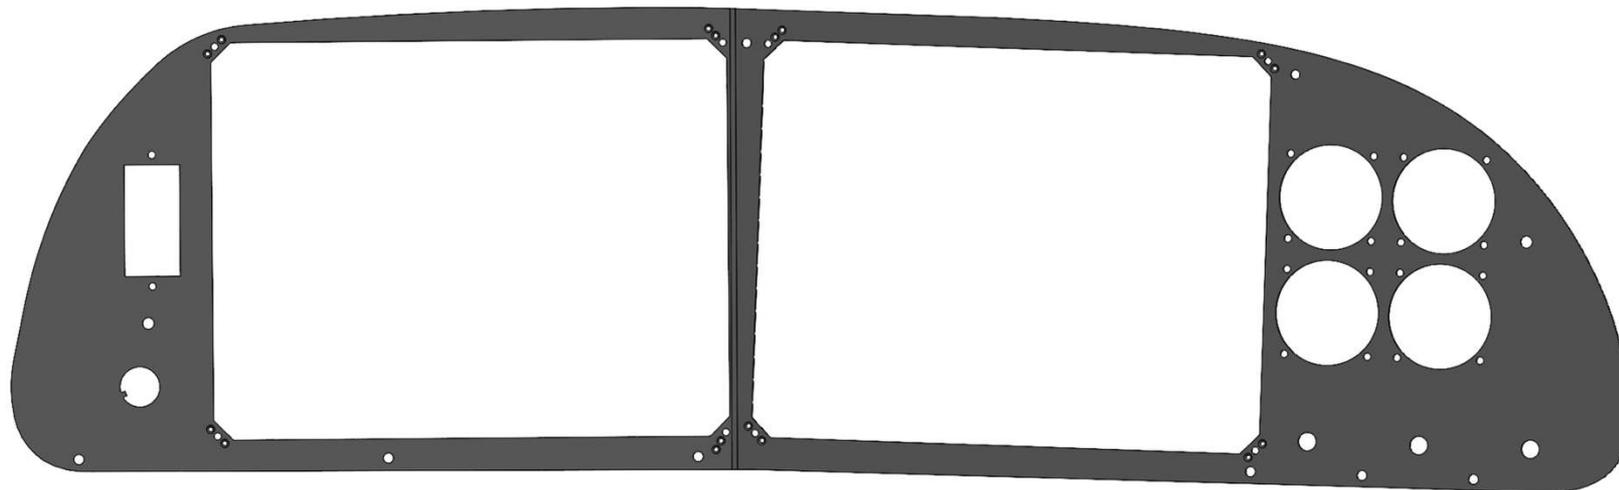

1. Obtain a panel photo from the customer.
  2. Identify the aircraft serial number.
  3. Identify whether the aircraft is an SIU or DAU configuration.
  4. Select the appropriate panel from the available options.
  5. Select the appropriate overlay from the available options.
  6. View the systems guide found on the dealer portal for overlay advisement, specifically section 6.4.1.
- If the available overlay options do not meet requirements, a custom overlay will need to be sourced from an external vendor.
